

Electrolux Oxygen Central Vacuum Systems

An advanced central vacuum designed to clean large size homes.

ELUX930

Technical Data

Part Number	004114
Colour	Granite grey with Ice white
Construction	Plastic body
Airwatts	700
Motor power max, W	1600
Voltage	230
Airflow rate max, l/s	54
Waterlift, mm	3670
Motor	Flow-thru
Muffler	Integrated silencer
Sound level at unit, dBA (ASTM F2544-06)	74
Information display	LCD
Filter	GORE-TEX® Self-cleaning
External HEPA Allergy Plus filter	Optional
Dirt receptacle volume, litres	31
Dirt receptacle window	Yes
Paper bag adaptor (x1)	Yes
Dimensions HxWxD, mm	1068x465x380
Net weight, kg	10.1

LCD display screen

The easy to navigate LCD user-interface screen provides data on your system's performance, use and maintenance.

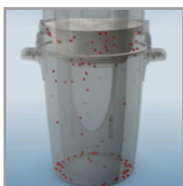

Redesigned latches

The newly designed latches make unlocking and emptying the dirt bucket an easy task. The bucket locks back into place with a superior seal to make sure the dirt and dust stays in the bucket.

Self-cleaning filter

Our exclusive self cleaning filter with GORE-TEX™ technology filters out 98% of particles, protecting the motor and keeping superior suction over the life of your vacuum.

Optional HEPA Allergy Plus filtration

The optional HEPA Allergy Plus filter purifies the air to 99.97%, removing any impurities or allergens left after filtration, and diffuses it before recirculating, eliminating the need to exhaust to the outside.
